

Greenville County Sheriff's Office
Steve Loftis, Sheriff

2013 Annual Report

LETTER FROM THE SHERIFF

As 2013 has come and gone, I recognize how we here at the Greenville County Sheriff's Office continue to make great strides every year building and growing a law enforcement agency that stands out amongst all others in the state of South Carolina. This year, we celebrate in our accomplishments together and have risen to meet the new challenges brought upon us.

On the heels of the 2012 Sandy Hook Elementary school shooting, one of the deadliest grade school shootings in US history, we worked diligently, in collaboration with the Greenville County School District, to build and implement an Elementary School Response Plan to become more visible in the community with efforts focused on protecting our elementary school children. On January 14, 2013, we were faced with our own deadly force incident close to home as a man executed a planned confrontation with both a city and county officer in the back lot of the Law Enforcement Center, ultimately ending his own life. This incident renewed our awareness to the necessity of protecting the safety of our own employees and began conversation about how to better protect our own buildings. And together, we celebrated the successes of great men and women, awarded for their bravery, service and sacrifice to their fellow man at our 2013 Annual Awards Ceremony. It was an opportunity to honor the loyalty of many deputies who have brought countless hours and tireless efforts to this office, some celebrating their lifelong careers here at GCSO.

2013 was a milestone in my own life as I proudly celebrated forty years of law enforcement service. I am thankful for many years of priceless memories, lifelong friendships, and the opportunity to lead such a dynamic group of men and women. I look forward to what our future holds and offer a heartfelt thank you to each and every member of our team for your invaluable contribution to our great agency and the citizens of Greenville County.

Sincerely,

Steve Loftis, Sheriff

NATIONALLY ACCREDITED

In 1988 the Greenville County Sheriff's Office became the first law enforcement agency in the state and 75th in the United States to be nationally accredited by the Commission on Accreditation for Law Enforcement Agencies, Inc. (CALEA)

In 2010 the Greenville County Sheriff's Office became designated as a "Flagship Agency", and one of only 20 agencies internationally recognized for this highest honor.

ABOUT CALEA

The Law Enforcement Accreditation Program was the first credentialing program established by CALEA after its founding. It was originally developed to address what was seen as a need to enhance law enforcement as a profession and to improve law enforcement service delivery. That mission continues today through a tiered law enforcement accreditation program. Participating agencies may enroll in either CALEA Law Enforcement Accreditation or CALEA Advanced Law Enforcement Accreditation, without regard to agency size.

Since the first CALEA Accreditation Award was granted in 1984, the program has become the primary method for an agency to voluntarily demonstrate their commitment to excellence in law enforcement. The standards upon which the Law Enforcement Accreditation Program is based reflect the current thinking and experience of law enforcement practitioners and researchers. Major law enforcement associations, leading educational and training institutions, governmental agencies, as well as law enforcement executives internationally, acknowledge CALEA's Standards for Law Enforcement Agencies© and its Accreditation Programs as benchmarks for professional law enforcement agencies.

CALEA Accreditation requires an agency to develop a comprehensive, well thought out, uniform set of written directives. This is one of the most successful methods for reaching administrative and operational goals, while also providing direction to personnel.

CALEA Accreditation standards provide the necessary reports and analyses a CEO needs to make fact-based, informed management decisions.

CALEA Accreditation requires a preparedness program be put in place—so an agency is ready to address natural or man-made unusual occurrences.

CALEA Accreditation is a means for developing or improving upon an agency's relationship with the community.

CALEA Accreditation strengthens an agency's accountability, both within the agency and the community, through a continuum of standards that clearly define authority, performance, and responsibilities.

Being CALEA Accredited can limit an agency's liability and risk exposure because it demonstrates that internationally recognized standards for law enforcement have been met, as verified by a team of independent outside CALEA-trained assessors.

CALEA Accreditation facilitates an agency's pursuit of professional excellence.

The Sheriff's Office purpose is clear; to provide professional law enforcement services to the people of Greenville County. With this commitment and the support of our progressive citizens, the future promises to be just as remarkable as the past.

ADMINISTRATIVE SERVICES DIVISION

The **Administrative Services Division** is the Executive Branch of the Greenville County Sheriff's Office which oversees the entire operation of the Sheriff's Office. The fifty-two employees assigned to the Administrative Services Division provide support to the following units, which comprise this division:

Accreditation and Grants

This unit maintains our Law Enforcement Accreditation which is granted by the Commission on Accreditation for Law Enforcement Agencies. The Greenville County Sheriff's Office was the first law enforcement agency in South Carolina to gain national accreditation in 1988 and has maintained this distinction ever since. National Accreditation insures that the citizens of Greenville County receive consistent, professional law enforcement services from the employees of the Sheriff's Office. The Sheriff's Office seeks out grant funding which provides equipment and training while saving local tax dollars. Over the years many important programs have been funded through grant money.

Center for Advanced Training

The Center for Advanced Training provides in-service and advanced training for all sworn officers of the Sheriff's Office. In addition, the training center was the second law enforcement agency in the state chosen as a distance learning lab for the Criminal Justice Academy. This allows federal, state and local law enforcement to receive training without having to travel; thus allowing more officers to receive training while reducing the costs associated with training. The C.A.T. has classroom space along with state of the art firing and driving ranges. During 2013, the C.A.T. conducted over 2,580 hours of training with 6,826 students attending.

Crime Stoppers

In June 1983, a group of concerned citizens and local media team-up with law enforcement to form the County's first Crime Stoppers program. Our local chapter was modeled after the original Crime Stoppers program in 1976 in Albuquerque, New Mexico. By following their lead, Greenville's Crime Stoppers chapter has become successful and rewarding. Since the beginning of the Greenville Crime Stoppers program more than 28,000 callers have given information about criminal activity in their area. With this information, more than 8,000 cases have been cleared, resulting in more than 2,700 individuals arrested. Over the past year, Crime Stoppers received 1,450 calls which resulted in 197 arrests and 436 cases being cleared.

Vice / Narcotics

The Vice and Narcotics Unit conducts investigations related to illegal drugs and gambling in Greenville County. Many investigations are conducted with state and federal law enforcement agencies such as FBI and BATFE. Additionally, they maintain a full-time position with the DEA and FBI Task Forces. This allows ready access to a wide variety of information and asset sharing programs that would otherwise be difficult to obtain. This has resulted in numerous indictments related on federal drug charges. The Vice & Narcotics Unit is also tasked with investigating methamphetamine cases and suspected meth labs. This is a very hazardous and unpredictable assignment for the skilled men and women of the Sheriff's Office who enter, secure, and dismantle these operations. All deputies work 12 hour shifts to ensure the maximum coverage within the beat areas they are working.

Follow-Up Team

The Follow-up team consists of 3 uniformed deputies. The team provides support to Uniform Patrol Deputies by aiding in street level investigations.
